

MARK SCHEME for the May/June 2010 question paper
for the guidance of teachers

0610 BIOLOGY

0610/22

Paper 22 (Core Theory), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the May/June 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Page 2	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – May/June 2010	0610	22

General notes

Do not exceed the section sub-totals or question maxima.

Symbols used in mark scheme and guidance notes.

/ separates alternatives for a marking point

; separates points for the award of a mark

MP mark point - used in guidance notes when referring to numbered marking points

ORA or reverse argument / reasoning

OWTTE or words to that effect

A accept - as a correct response

R reject – this is marked with a cross and any following correct statements do not gain any marks

I ignore / irrelevant / inadequate – this response gains no mark, but any following correct answers can gain marks.

() the word / phrase in brackets is not required to gain marks but sets the context of the response for credit. e.g. (waxy) cuticle. Waxy not needed but if it was described as a cellulose cuticle then no mark is awarded.

mitosis underlined words – this word only

e.c.f. error carried forward

Page 3	Mark Scheme: Teachers' version	Syllabus	Paper
	IGCSE – May/June 2010	0610	22

1

	1a	1b	2a	2b	3a	3b	4a	4b	name
A	✓			✓					<i>Venerupis;</i>
B		✓			✓		✓		<i>Turritella;</i>
C		✓				✓			<i>Patella;</i>
D	✓		✓						<i>Cardium;</i>
E		✓			✓			✓	<i>Buccinum;</i>

any four correct rows, ticks + name, 1 mark each

[4]

[Total: 4]

If all five names are correct but no ticks in grid MAX 2

A – yes for a tick

R – other ticks in any row

I – crosses/no in other boxes
